

# Whole House Water Treatment System

No Electricity Required - No Drain Line Required - No Chemicals

## HALO MINI 2

### Whole House Filtration Dual Stage Treatment

**Delivers Great Tasting Water From Every Tap**

The HALO Mini Series 2 Stage is the definitive choice for affordable and reliable whole house water filtration. Make no mistake. The HALO Mini Series 2 stage system is a premium Whole House solution with a compact footprint at an affordable price.

With a 5 micron sediment cartridge 1st stage and a premium UltraFlow carbon cartridge as a second stage; crystal clear great tasting water throughout your home is finally within reach. Reach for a heavenly glass of HALO water now.

## HALO MINI 3

### Whole House Solution Filtration & Conditioning

**Protects your Family, Home & Planet**

No more need to buy expensive bottled water when you have the HALO Mini Series 3 installed. Great tasting filtered water flows from every sink and spout in your home. Enjoy HALO now.

Softeners take out the healthy minerals and replace them with salt or potassium chloride. The HALO Mini Series 3 Stage magnetic water conditioner will control new (lime) scale formations, dissolve existing scale and inhibit corrosion. The HALO Mini Series 3 is a complete solution.

**Stage 1:** Captures Sediment

**Stage 2:** Removes Contaminants

**Stage 3:** ION - Scale Fighter\*

\*(The HALO ION is proven to dissolve existing scale, prevent new scale formations and inhibit corrosion)

**STAGE 1**  
5 MIC. SEDIMENT

**STAGE 2**  
ULTRA FLOW CARBON

**STAGE 3**  
HALO ION®

## Whole House Water Treatment System

No Electricity Required • No Drain Line Required • No Chemicals

### MH2- HALO MINI SERIES 2

Two Stage Whole House Filtration System

**Dimensions:** 30" h x 15" w x 9" d

**Shipping Weight:** approx. 35 lbs.

**Inlet/Outlet:** 1" threaded

**Includes:** Fully assembled system including cartridges and filter wrench. Complete Installation & Maintenance Guide.

**Rated Flow:** effective up to 8 GPM with a 15 GPM max flow.  
Capacity: approx. 70,000 gals.

**Replacement Media:**

MH-RC-1: Sediment Cartridge

MH-RC-2 - UltraFlow Carbon Cartridge

### MH3- HALO MINI SERIES 3

Three Stage Whole House Filtration System

**Dimensions:** 30" h x 23" w x 9" d

**Shipping Weight:** approx. 45 lbs.

**Inlet/Outlet:** 1" threaded

**Includes:**

Fully assembled system including cartridges and filter wrench. Complete Installation & Maintenance Guide

**Rated Flow:** effective up to 8 GPM with a 15 GPM max flow.  
Capacity: approx. 70,000 gals.

**Replacement Media:**

MH-RC-1: Sediment Cartridge

MH-RC-2 - UltraFlow Carbon Cartridge

**WARNING:** Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. Intended for treatment of cold water only. Do not exceed 80 psi. Intended for residential use only.

**ADVISORY:** The HALO Mini Series Systems are intended for treatment of potable water provided by municipal water providers. While the HALO Mini Series system may be effective for treatment of Well Water it is vital that a well water quality analysis be provided for review in order to ensure that optimum results can be realized.

**AFTER INSTALLATION:** The granular activated carbon cartridges will contain a very small amount of carbon fines (very fine black powder). After installation, a new cartridge should be flushed with sufficient water to remove all traces of the carbon fines from your water system before using the water. Each time you use your filtered water tap for drinking or cooking purposes it is recommended that you run (flush) the tap for at least 20 seconds prior to using water. This is particularly important if the water tap has not been used daily.
